CATALOGUE 2021

GENERAL INFO

Measurements

The dimensions shown in the tables are the exterior dimensions (including handles, wheels, bottom glides, side pockets and other external parts).

Measurements of volume, dimensions and weight are carried out in the Samsonite laboratories using procedures whereby tolerances up to 1,5 cm in dimensions and 5 % in weight and volume cannot be excluded.

Samsonite reserves the right to amend the specifications, colours, dimensions and weight of any product without prior warning. Colour deviation may occur due to the printing technique used.

Product Codes

All Samsonite product codes appear as follows: Prodigy Spinner 55:

74770 (COON*001)
MODEL CODE SPINNER 55
PRODUCT LINE CODE PRODIGY
MODEL CODE PRODIGY SPINNER 55

Quality

We deliver the quality. You conduct the test. Every journey. Every day. You might not have given it any thought, but each Samsonite product undergoes the most stringent controls and tests before it goes on the market. Of course, the ultimate test is conducted by you, the customer.

Celebrating 110 years of luggage innovation

110 years ago, entrepreneur Jesse Shwayder founded a trunk manufacturing company in downtown Denver, Colorado. Shwayder quickly recognised the opportunity in the growing luggage market due to the 'Gold Rush.' Meanwhile, the family business has become a dynamic and world leading luggage company with several strong brands. Since its formation in 1910, Samsonite has been manufacturing premium quality luggage and bags with one clear goal in mind: create durable and strong products to meet the needs of travellers and commuters.

The global travel industry never stands still, but, through its 110-year lifespan, Samsonite has maintained its focus on quality, durability and technical innovation. It has led the industry in using new materials, creating iconic designs and providing ever more comfort. Along the way, there have been a number of notable "firsts", as part of its tradition of innovation.

1910

The Wooden Trunk

Jesse Shwayder, the company's original founder, redesigns the basic wooden trunk with shiny metal studs and corner-pieces making it more eye-catching and "strong enough to stand on."

1941

Streamlite™

In an early use of a new cutting-edge technology, the Streamlite suitcase is clad in a lightweight lithographed paper to create a "rawhide" effect. Its tapered shape is destined to become a classic within the industry.

1958

Silhouette™

The most advanced luggage made up to that time, included a new modern shape with recessed hardware to protect it from the wear and tear of travel.

1962

Classic Attaché

The first ABS attaché case is created for a new generation of business men. This sleek case soon became emblematic for the early-60s Mad Men-style executive.

1969

Saturn™

As a response to the rising demand of lightweight luggage, Samsonite launches its first polypropylene suitcase with injection-moulded shells. The Saturn collection was the niftiest iteration of lightness and strength yet.

1974

Silhouette Blue

The introduction of wheels to the Silhouette frame transformed the luggage world for ever. The case was a true revolution in travel comfort and convenience, targetting a new generation of frequent flyers.

1986

Oyster™

Oyster was the first suitcase with a three-point locking system, providing ultimate strength and security. The case was an immediate triumph, with 140.000 bought in its first year, it was the fastest-selling case of all time.

1994

Ziplite™

With Ziplite, Samsonite introduced its first polypropylene suitcase with a zipper closure, thus combining both the benefits of hardside and softside luggage. Sales took off quickly and the market for hardside suitcases with zippers was born.

1998

Xylem™

Introduction of the first Samsonite suitcase in aluminium. Its matching attaché would go on to play a key supporting role in the James Bond movie "The World Is Not Enough," where it was used to tote bundles of cash around Europe.

2004

Spinner®

Samsonite markets the four-wheel Spinner, which could be steered in any direction and toted right alongside the traveller. This innovation radically improved mobility and convenience for travellers as they navigated their way through modern airports.

2008

Cosmolite®

Samsonite launches Cosmolite as an answer to the market's increasing demand for stronger and lighter suitcases. It was the lightest and strongest Samsonite case yet developed. Its sea shell inspired design became an instant success and the collection went on to win many design awards, including Red Dot Award "Best of the Best."

2015

Neopulse™

With the launch of Neopulse, Samsonite further strengthens its production capacity in Europe. The Made in Europe label, in combination with a strong design and competitive weight advantage are what made this collection an instant commercial success.

2018

Eco Collection

Worldwide, Samsonite launches 23 product lines that are made from recycled polypropylene or Recyclex™, a fabric made from 100% post-consumer recycled PET plastic bottles.

2019

S'Cure ECO Green Grey edition

The "Green Grey" edition of S'Cure ECO is the first suitcase on the planet repurposing post-consumer recycled plastic waste. The suitcase's shells are made using recycled polypropylene from post-consumer household waste, turning a material too valuable to be thrown away into a high-quality functional product.

2020

110 Year Anniversary

Ready for the next chapter: we celebrate our 110 year anniversary with brand new novelty collections.

With its refreshing modern look, Rythum* is born to live up to the energetic rhythm of the stylish urban traveller.

- Its urban looks are created by a minimalistic design, emphasised by its double material usage (two tone fabric material + PU coated fabric on the base panels)
- Great mix of spinner and duffle items, answering different packing and travel needs

Apparel inspired material mix with neon colour details

Easy-access ticket pocket on cabin styles

Integrated TSA lock on all items, including duffles on wheels
